

Play in Ltd

Environmental Policy

Play in Ltd is committed to the protection of the environment through reducing pollution, emissions and waste.

As part of the induction process, and through staff meetings and training, our staff will be informed about reducing the use of raw materials, supplies and energy.

We raise the children's awareness of environmental issues through discussions, projects and day-to-day activities within the club.

Children and staff follow the Club's 'eco code':

- We switch off lights when not in use and fit the lights with energy saving bulbs where possible.
- We turn off electrical equipment at the power source when not in use.
- We turn off taps after use and do not waste water.
- We do not drop litter.
- We plan our outings to minimise vehicle use and walk or use public transport whenever possible.
- We re-use and recycle our waste material, and the recycling bins are easily accessible to staff and children.

This policy was adopted by: Play in Ltd	Date: Jan 2020
